HPS launches new logo, website

There are quite a few positive changes happening at HPS, and we're very excited to announce the launch of a new logo and Website. While we remain firmly committed to our hospital members, we are dropping "Hospital Purchasing Service" and going to simply "HPS". This change reflects the evolution of HPS to an organization with a very diverse membership, including schools, universities, hospitals, senior living facilities, camps, senior meals on wheels programs, instrumentalities of government and more. And since most of our members know us by our acronym, this will be an easy transition. While our logo and name are changing, our mission to save our members money has not. We are still the same company with committed staff and a comprehensive program and will continue to provide a high level of customer service.

In addition to our new logo, we are launching a new and improved Website. Remaining at the same domain name, www.hpsnet.com, our new site offers a fresh, updated look and easier navigation. Our goal with this new site is to give each of our members access to the most updated information on the HPS program. At the site, members will be able to search and view contracts and pricing with an enhanced search mechanism that will allow them to find the best match for the search criteria. In addition, our calendar of events will allow members to keep abreast of meetings at HPS and events in which we will participate, such as industry trade shows. Members will even be able to monitor contract updates and read the newsletter before they receive it in their mailbox! Requests for evaluations, audits or business reviews can also be made on the site.

Please browse our new and improved Website at www.hpsnet.com and let us know your thoughts. You may learn something new about the HPS program!
